# Tech Tips - Learning What's New

- *Did you know that there is an easy way to learn what's new in IBM SPSS Statistics?*
- In IBM SPSS Statistics Version 28, users can go to the **File** menu and search for the **Welcome Dialogue**.

# Tech Tips - Learning What's New

- On the right side of the Welcome Dialogue is the What's New section. Here users can use the small blue arrows for touring new features in IBM SPSS Statistics.
- In this example, the new Color Scales for Pivot Tables are shown along with a description. This makes seeing new features super easy!

What's New

	Frequency	Percent	Valid Percent	Cumulative Percent
Valid 8	53	11.2	11.2	11.2
Valid 12	190	40.3	40.1	51.3
Valid 14	6	1.3	1.3	52.5
Valid 15	118	24.9	24.5	77.0
Valid 16	59	12.4	12.4	89.5
Valid 17	11	2.3	2.3	91.8
Valid 18	9	1.9	1.9	93.7
Valid 19	27	5.7	5.7	99.4
Valid 20	2	.4	.4	99.8
Valid 21	1	.2	.2	100.0
Total	474	100.0	100.0	

The pivot table editor now includes the menu option Color Scales, which provides heat map style settings that display selected table cells in varying colors based on the cell values.
