Tech Tips – Quick Change to Graphs

- **Did you know that there is an easy way to change graphs created in your output?**
- Below we adjusted the appearance of the graph in our output. Follow the simple rule and *click on the thing you want to change*.

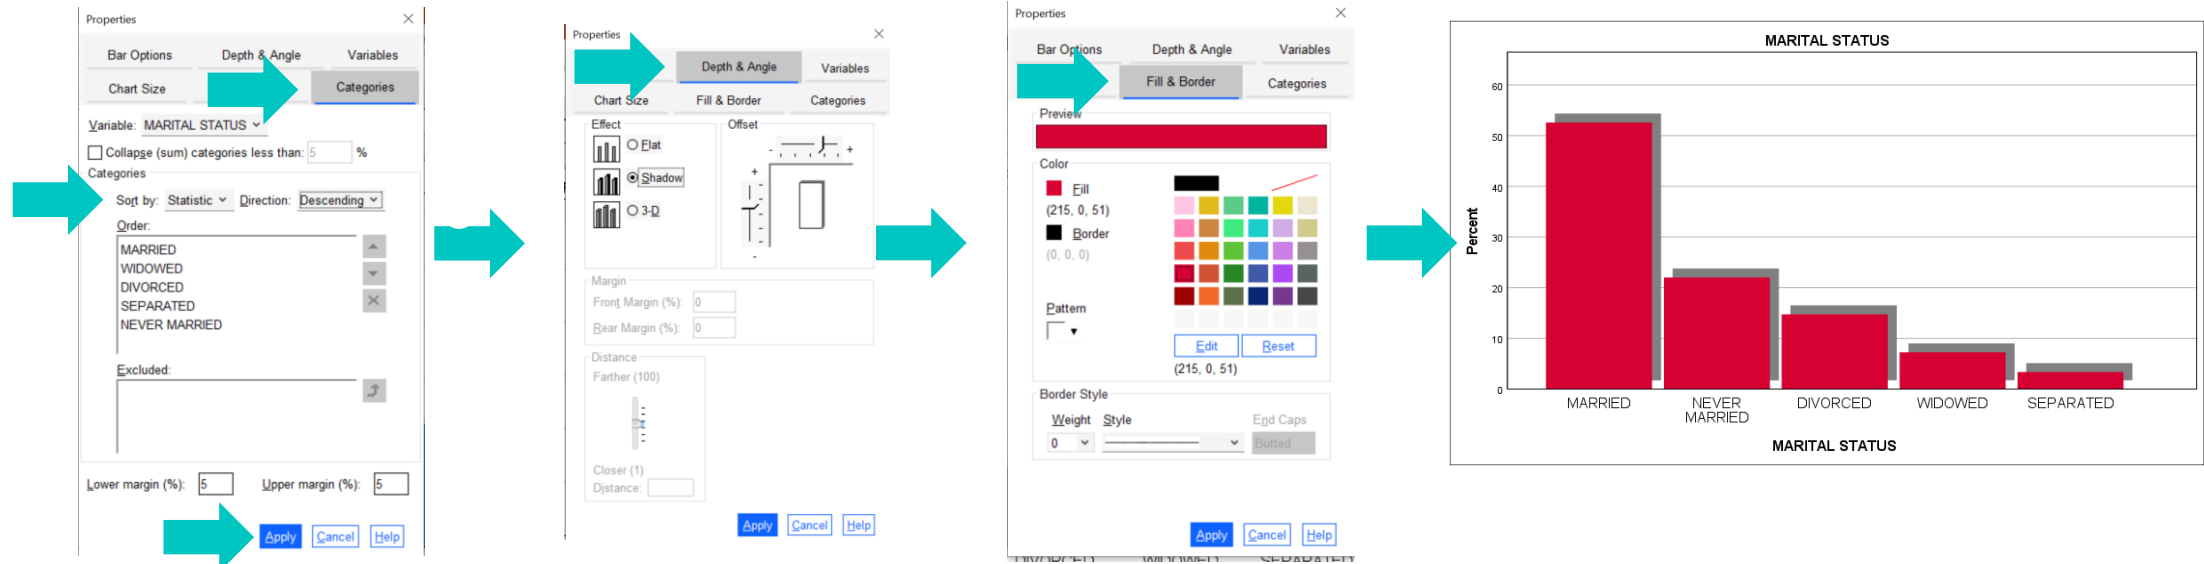

Tech Tips – Quick Change to Graphs

- Double click on the graph to open it. Click on the thing you want to change. In this case, we want to change the bars. Click on a bar and all bars will be highlighted. Right click on a bar and select **Properties Window**.

Tech Tips – Quick Change to Graphs

- In the **Properties Window** select **Categories** and sort by **Statistic** and **Descending**. Click **Apply**. Click the **Depth and Angle** tab and select **Shadow**. Click **Apply**. Click on **Fill and Border** and click a fill colour. Click **Apply**. Now your graph is updated.

Thank You
