# Tech Tips – Using the Dialogue Recall Tool

- *Did you know that there is an easy way to go back to procedures you have recently run in IBM SPSS Statistics?*
- The toolbar has the **dialogue recall tool**, which shows recently run procedures.

	age	marital	addresses	income	inccat	car	carcat	ed	employ	retire	empcat

14	42	0	8	137.00	4.00	68.90	3.00	3	3	0	1
15	35	0	8	70.00	3.00	34.10	3.00	3	9	0	2
16	52	1	24	159.00	4.00	78.90	3.00	4	16	0	3
17	21	1	1	37.00	2.00	18.60	2.00	3	0	0	1
18	32	0	0	28.00	2.00	13.70	1.00	1	2	0	1

# Tech Tips – Using the Dialogue Recall Tool

- In this example, clicking on the **dialogue recall tool** shows that the most recent procedure was a Frequencies count. Click on **Frequencies**, and the Frequencies dialogue box opens up with the settings and selections chosen the last time this procedure was run.
- Users can make quick changes, add variables and rerun the procedure.

# Thank You
