

'What's This?'

Tech Tips - IBM SPSS Modeler

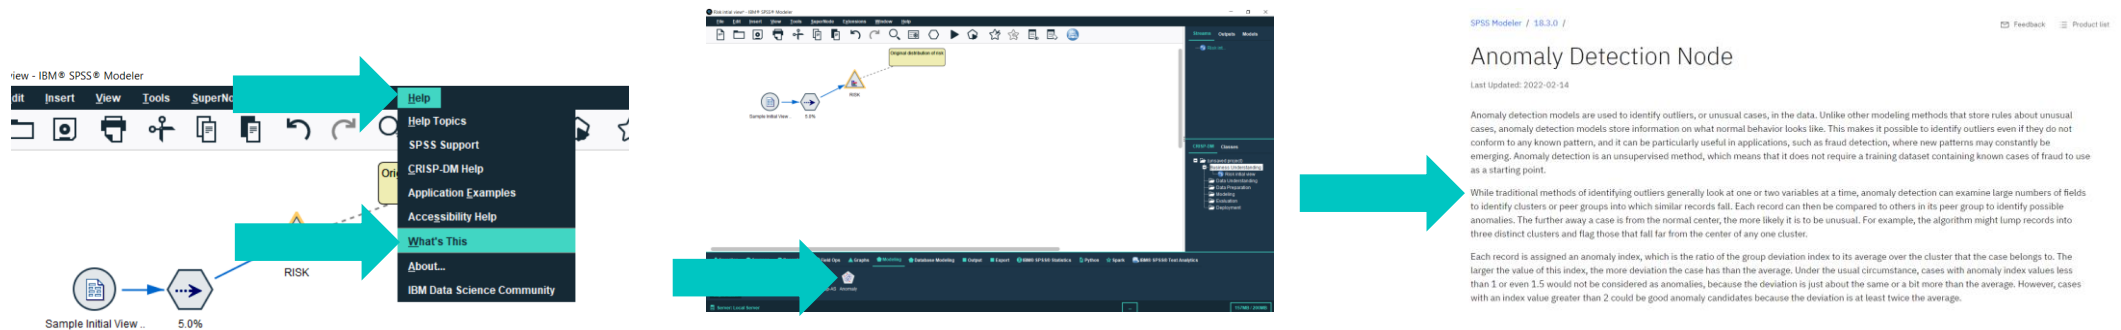

Tech Tips – Using the ‘What’s This’ Tool

- Here’s a quick tip to learn in IBM SPSS Modeler. Using the **‘What’s This’** tool allows you to quickly get information as you work. The **‘What’s This’** tool is available on the **Help** menu.

Tech Tips – Using the ‘What’s This’ Tool

- To use **‘What’s This’** go to the Help menu and select **‘What’s This’**. Your cursor will turn into a question mark that you can move to the item you want to understand.
- For example, we want to learn about Anomaly analysis. Go to the **Help** menu and select **‘What’s This’**. The cursor will become a question mark and we can click on the Anomaly node on the Modelling palette. This will bring up information on the **Anomaly Detection Node**. Using **‘What’s This’** makes it easy to learn as you work.
