1. INTRODUCTION

These instructions are for installing the IBM SPSS Amos 27 Network License for Windows desktop computers. A network license allows you to install IBM SPSS Amos 27 for Windows which is on the same network as the license server and if there are licenses available for use. To install, you must be logged on to your computer with administrator privileges.

2. DOWNLOADING IBM SPSS AMOS VERSION 27

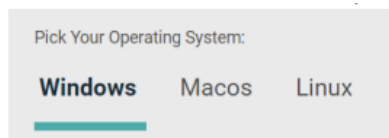

2.1. Download Link

Please follow the below link to download the version of IBM SPSS Statistics:

[SPSS Customer Portal | SPSS Analytics Partner](#)

2.2. Operating System

Scroll down and select your Operating System.

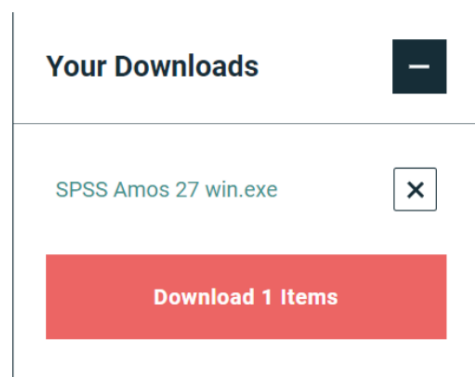

2.3. Select Software

Expand IBM SPSS Amos and Version 27. Select the software you need and click Add.

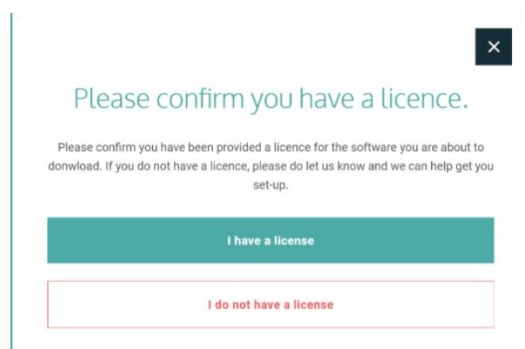

2.4. Your Downloads

Your selection will appear in the 'Your Downloads' section to the right. Select Download.

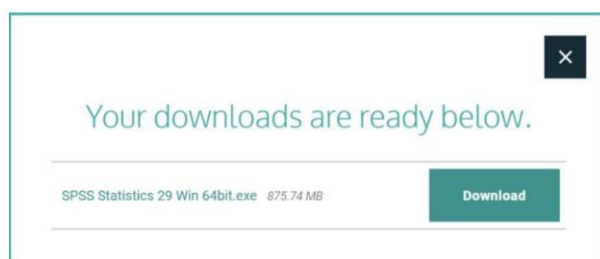

2.5. Confirm License

Confirm that you have a license.

2.6. Downloads are Ready

You will receive a message that your download(s) are ready. Click the Download button to download the software.

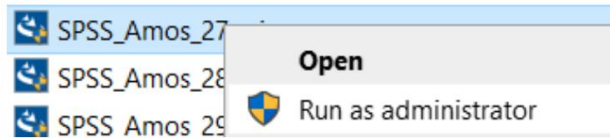

3. INSTALLING IBM SPSS AMOS VERSION 27

Once the download is complete, follow the below steps.

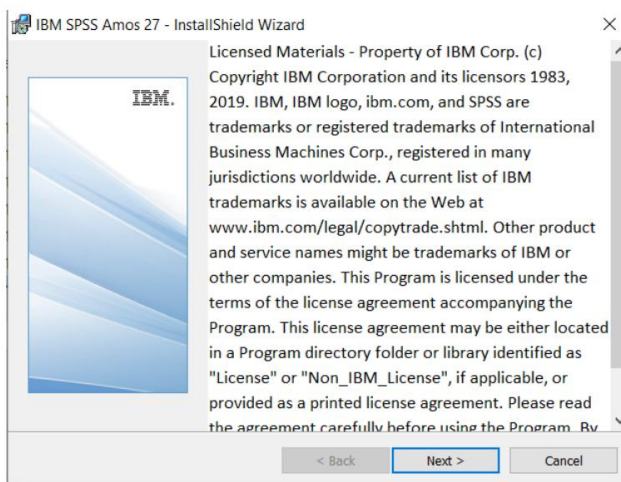

3.1. Run as Administrator

To get started right click on the software and select "Run as administrator" if possible.

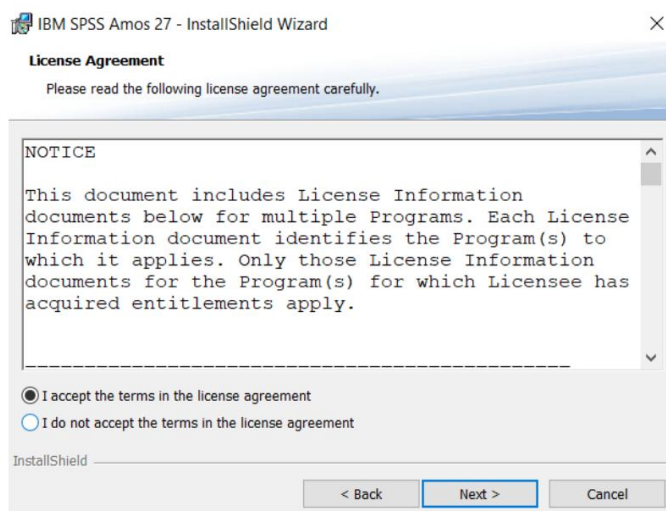

3.2. Installation Start

The installation will start. Click on "Next".

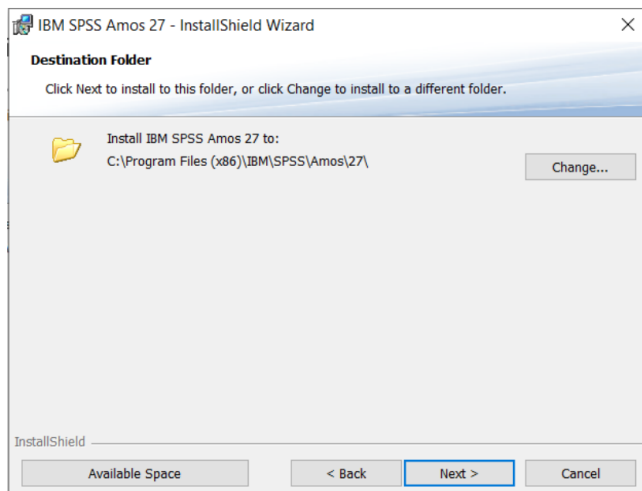

3.3. Terms of license

Accept the terms of the license and click "Next".

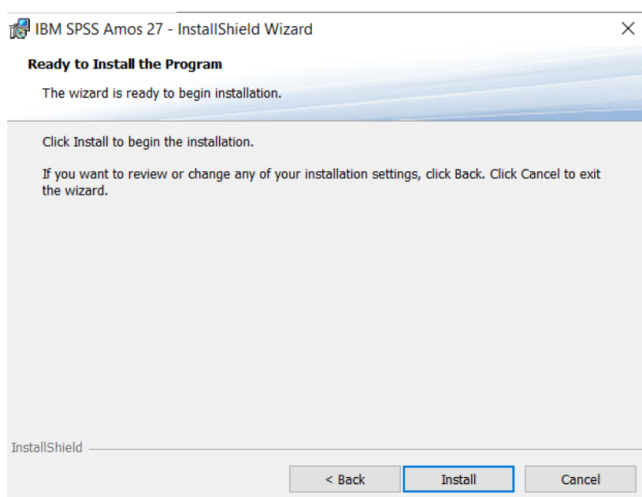

3.4. Destination Folder

Select the destination folder. You can select “Change” to select another installation location. Click on “Next”.

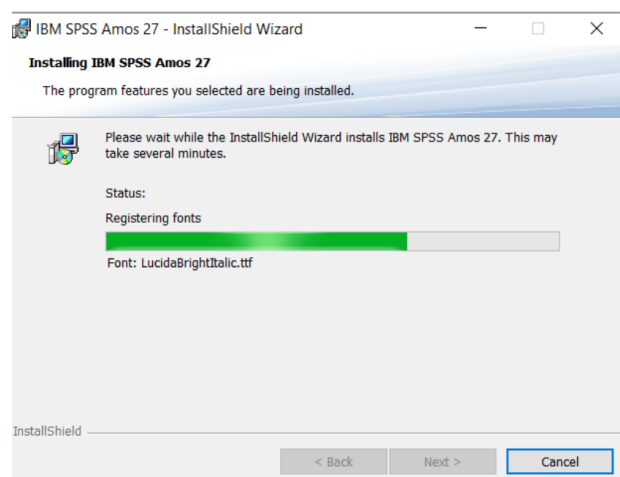

3.5. Install

Click “Install”.

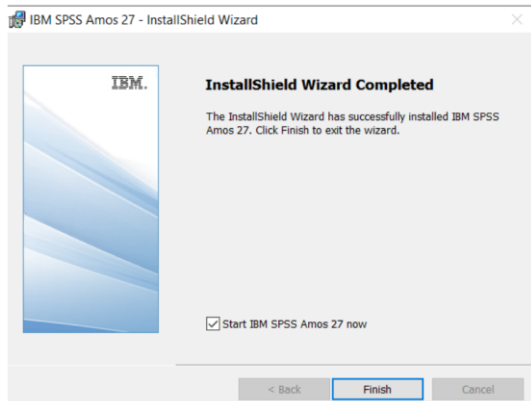

The program will install.

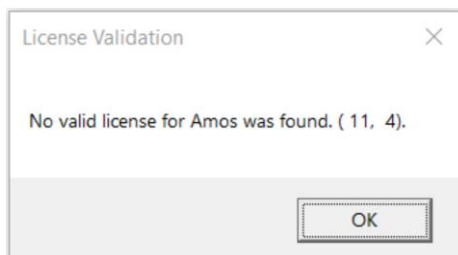

3.6. Successful Installation

You will receive a message that the installation has been successful. Click "Finish".

3.7. Apply License Code

Once you click finish you will receive the message below. Don't worry - you just need to apply your license code.

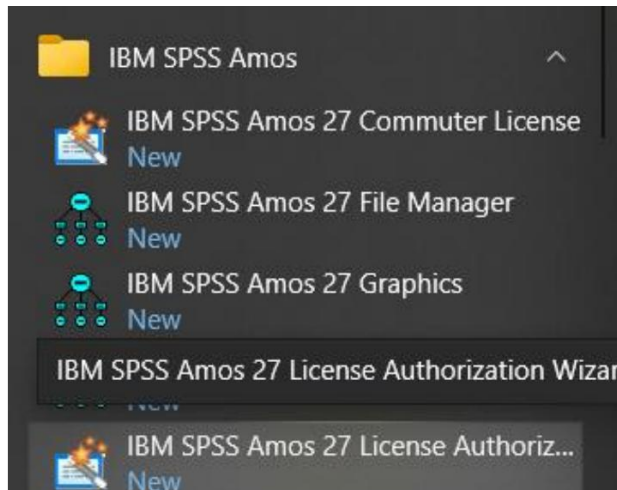

4. LICENSING YOUR IBM SPSS AMOS VERSION 27

IBM SPSS Amos 27 is licenced through the Licence Authorisation Wizard. *To use Amos, you will need to run the License Authorization wizard.*

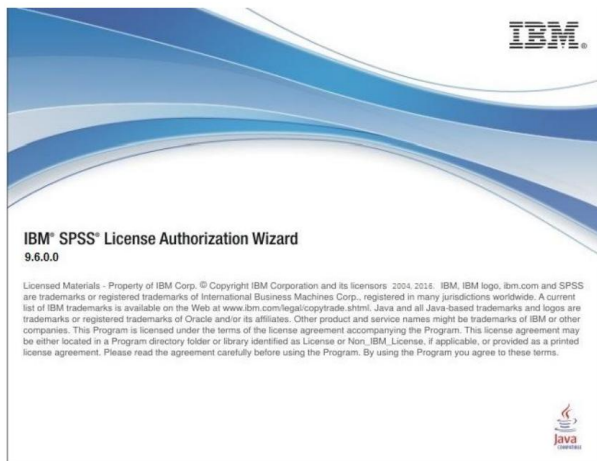

4.1. License Authorization Wizard

To do this go to the Start menu and expand the “IBM SPSS Amos” folder. Select the “IBM SPSS Amos 27 License Authorization Wizard”. The arrow below shows where this is located.

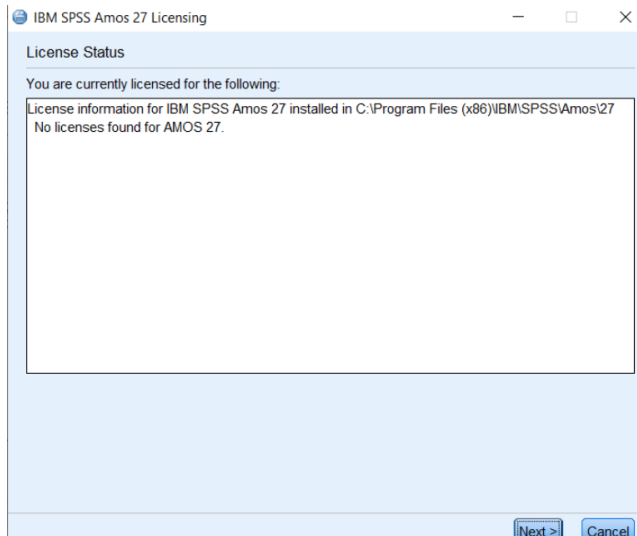

4.2. Licensing Tool Starting

Once you select “IBM SPSS Amos 27 License Authorization Wizard” you will see the screen below. The licensing tool is starting.

4.3. Apply Your License

You will then see the message below. Click on "Next" to apply your license.

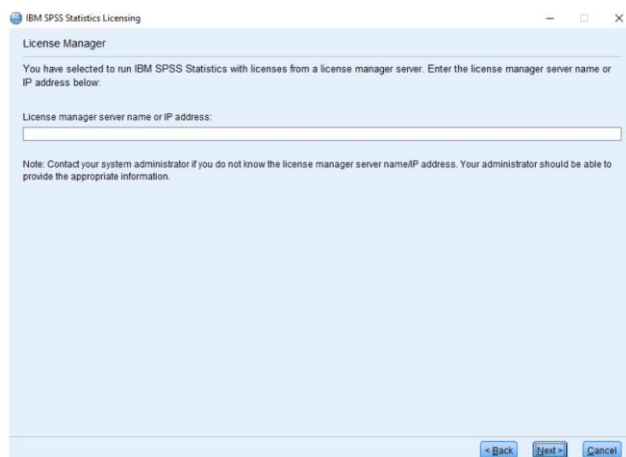

4.4. Concurrent User License

You will now be presented with this screen shown below. Select "Concurrent user license". Click on "Next".

Enter in either your License Manager's Server IP address or Server name and select "Next"

4.5. Authorization Succeeded

You will receive a message that "Authorization succeeded".

4.6. Licensing Completed

You will receive a message that states that licensing has completed.

You can now start using IBM SPSS Amos version 27.

5. APPLYING FIX PACKS

You will want to ensure that you apply any necessary fix packs at the latest fix pack level. Fix packs can be downloaded at [SPSS Customer Portal | SPSS Analytics Partner](#). Please ensure that you complete all pre-installation and post-installation tasks as described in the fix pack instructions
